

A word cloud featuring various software development terms and their German equivalents, arranged diagonally from the top-left to the bottom-right. The terms are in different colors and sizes, with some appearing in both English and German. The English terms are: 'extract method', 'long parameter list', 'dead code', 'lazy class', 'long method', 'black sheep', 'god class', and 'spaghetti code'. The German equivalents are: 'mysteriöses name', 'extract method refactoring', 'monolithische Dateistruktur', 'selber implementieren', 'schlechtes layout', 'unleserlicher code', 'large classes', 'large class', 'struktursimplifizierungen', 'viele Klasse', 'komplexe Strukturen', 'unnecessary comments', 'In-line class treatment', 'komplexer code', 'golden hammer', 'simplifizierung', 'mysterious name', 'extract/pull-up method refactor', 'zu viele Klassen', and 'rename method/field/variable r'.

extract method  
long parameter list  
dead code  
lazy class  
long method  
black sheep  
god class  
spaghetti code

mysteriöses name  
extract method refactoring  
monolithische Dateistruktur  
selber implementieren  
schlechtes layout  
unleserlicher code  
large classes  
large class  
struktursimplifizierungen  
viele Klasse  
komplexe Strukturen  
unnecessary comments  
In-line class treatment  
komplexer code  
golden hammer  
simplifizierung  
mysterious name  
extract/pull-up method refactor  
zu viele Klassen  
rename method/field/variable r
